Note: Due to weather conditions expected on Sunday from Hurricane Irene the race course was changed.									
The race did not go to Kelleys Island, but instead did a 30 nm loop from Lorain, around the NOAA 45005 Weather Buoy and return to finish.									
The wind shutdown soon after Manitou and Sneak rounded the Buoy -- they were already heading downwind under spinnaker.									
The wind returned and built from the NE to E around 17:00 -- too late to overcome the top boats' lead.
